-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Ex parte Quayle***

This application is in condition for allowance except for the following formal matters:

***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the stretchers made of two parallel, integrally or individually formed cylindrical rods, the second connectors having two parallel channels and an intermediate pivot, and the struts having upper hook ends must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. (see claims 2 and 4)

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

Art Unit: 3637

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

Claim 4 is objected to because of the following informalities: the phrase "connector comprises two parallel channels with the stretchers passed" is worded in an awkward manner. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### ***Allowable Subject Matter***

Claims 1-9 are allowed. (The allowable subject matter being the specific construction of the frame of the umbrella, i.e. the folding umbrella frame comprised of a shank, a lower ring slidable along the shank, a first intermediate ring slidable along the shank, a second higher intermediate ring slidable along the shank, a hub on a top of the shank, a spring compressed between the lower ring and the first intermediate ring, a plurality of ribs pivotably extended outwardly from the hub, a plurality of first connectors each at an intermediate position of the rib, a plurality of stretchers each pivotably coupled between the first intermediate ring and each of the first connectors, a plurality

Art Unit: 3637

of second connectors each at a predetermined position of the stretcher, a plurality of reinforcing struts each pivotably coupled between the lower ring and each of the second connectors, a plurality of rope connectors each provided proximate of open end of each rib, and a plurality of ropes each coupled between the second intermediate ring and each of the rope connector.)

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet M. Wilkens whose telephone number is (571) 272-6869. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on (571) 272-6867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
